

CRAVE

www.cravedirect.com

To Whom It May Concern:

My name is Dmitry Kudryn and I'm founder and CEO of Crave – USA (www.cravedirect.com), an e-commerce business working with high-end electronics, located in Alaska. We are committed to creating innovative premium products to power, protect and inspire your adventures.

Stefan has been working for my company for approximately 1 year. His expertise and knowledge of Product Design and Visualization (3D Rendering services) has come to assist our company in a significant way.

He always puts his maximum effort in order to provide the best possible results. His knowledge has guided our company on several projects we currently have. He's willing to do everything it takes to get the job done.

I'm glad we cooperated and I highly recommend him to any individual or company seeking for a Product Design & Visualization services.

Do not hesitate to contact him.

Sincerely yours,

Dmitry Kudryn

REFERENCE LETTER

Stefan was one of my best sellers that I have worked with.

I've had the pleasure of working with Stefan on several occasions in the past. I've always found his work and attention to detail the highest quality.

He's helped our company with various projects ranging from 3D product rendering to animation.

Stefan, always meets the deadlines set and listens very well to alternations / changes that need to be made. I wouldn't hesitate to recommend him to any potential new client or business.

Keep up the excellent work!

Kindest regards

Dominic Lowe

Mechanical Design Engineer

Recommendation Letter

12 June 2018

My name is Nguyễn Vĩ Hùng and I'm FOUNDER and CEO. We focus on application with internet of things device. And after many years of researching, we become a product manufacturer.

Since this is the first project we have done, my job is to find someone who is smart and knowledgeable about product design for a new product we are bringing on the market called ZOVATE. And after a period of deliberation, we choose Stefan, because we believe he will accompany us until the actual product.

He is very experienced in product design, besides, he also has many skills using support software, such as photoshop, illustrator etc. So that will solve most of the problems that you encountered.

The strength of Stefan compared to the others I met was the ability to grasp the idea. I just describe and he deploys, even anticipating design issues that I will encounter.

Also, I appreciate the patience and enthusiasm, helping me achieve the perfect result.

I believe that with the participation of Stefan in your project, all results will be quickly generated and successful.

Sincerely yours,

Nguyễn Vĩ Hùng
